

Unlocking Business Potential

Many small businesses lack working capital to contract business development professionals to help them grow successfully. Even with a proven strategy to increase revenues, business owners are getting denied by traditional lenders. There has to be a better way!

There is! Smart Funding Solutions' Consultant FinancingTM **Jump Start program** is a cash-flow based financing program created to help small businesses qualify for up to 50k in funding to engage in professional services. The **Accelerator program** helps small businesses qualify for up to \$100,000 to invest in growth strategies developed with their consultant.

Small businesses that are declined by traditional lenders but have a 12 month positive cash flow history can qualify for \$5,000 to \$50,000 in Consultant Financing with Smart Funding SolutionsTM.

What makes Smart Funding Solutions different?

We partner with proven consultants who have successfully helped many businesses like yours reach their goals and objectives. Additionally, we don't reduce people and their businesses to a few pieces of "data". We don't base our decisions on surface criteria like credit scores and zip codes alone. We take the time to get to know our customers' unique situations: what happened in the past that explains their current situation, and what they are doing to change the trajectory of their future.

Business Owner Benefits

- Affordable Payment Schedule
- Flexible Underwriting
- A decision in 2 business days
- Funding within 7 days
- Minimum documentation
